Silicon Valley
650.251.1117

Shaalu Mehra guides clients through complex corporate and technology transactions, focusing his practice on emerging company venture capital, corporate venture capital, multinational joint ventures, technology procurement, and intellectual property acquisition and licensing.

With clients spanning Fortune 50 multinationals making critical technology investments to technology and digital health care start-ups backed by Tier 1 venture capital, Mehra leverages his background in computer science research and software development to navigate transactional matters for clients, including for FAANG companies, automakers, energy producers, telcos, chipmakers, and more.

As a recognized authority on corporate and technology issues, Shaalu frequently authors thought leadership in leading business and trade publications and is a featured speaker on critical industry topics at national and international conferences.
